

GIGATRON CR-633-MUCW1 Cubby Box

Product Overview

The **GIGATRON CR-633-MUCW1** is a modern, efficient desktop integration solution that combines AC power outlets, network interfaces, cable through holes and USB charging ports within a discreet flip-up box. Its sturdy alloy casing features a brushed black finish, allowing it to blend seamlessly into various office or home environments.

Technical Specifications

Feature	Specification
Brand	GIGATRON
Product Model	CR-633-MUCW1
Panel Type	Recessed (flush mount), requires cutting a hole for installation
AC Outlets	1 Universal power outlets
Rated Voltage/Current	120-250V AC, 10A
Data Interface	2 LAN (RJ45 Ethernet port)
USB-C Charge Output	65W Power Delivery (PD) fast charging (inferred voltage/current combinations: 5V/3A, 9V/3A, 12V/3A, 15V/3A, 20V/3.25A)
USB-A Charge Output	18 Max (inferred to support QC3.0 or similar fast charging protocols)
Qi Charger	Max 15W, compatible for device 5W/7.5W/10W/15W
Cable through hole	3 holes for cable grommet
Applications	Conference Rooms, Offices/Study Rooms, Hotel Rooms, Classrooms/Training Centers

Feature	Specification
Material	Alloy panel, metal bottom box
Color	Black/silver
Panel Dimensions (L x W x H)	280 x 130 x 126mm
Hole Dimensions (L x W)	269 x 122 mm(R2)
Accessory	Mounting Wing Screws included
Durability	Robust and durable, professional appearance

Product Features

- **Comprehensive Connectivity Hub:** Integrates essential power interfaces and data ports in one unit, eliminating the need for multiple independent adapters or cables on the desk.
- **15W Qi charger:** A 15W charging speed is faster than many standard 5W or 7.5W wireless chargers, allowing compatible devices to charge more quickly and efficiently.
- **1 Universal Power Outlets:** Compatible with a wide range of plugs from different countries, ideal for international use or environments connecting various devices (e.g., laptops, monitors, projectors, etc.).
- **65W USB-A+C Fast Charging:** High-power USB ports (especially the 65W USB-C PD) can quickly charge laptops, tablets, and smartphones, even fully charging devices like a MacBook Pro 13-inch in approximately 2 hours.
- **High-Speed Network Connection:** Equipped with 2 CAT6 (Category 6) Ethernet ports, providing stricter specifications for crosstalk and system noise than CAT5e, ensuring stable and reliable high-speed wired network connectivity.
- **Superior Cable Management:** The design includes 3 cable through holes (grommet holes), allowing users to route various external cables (such as HDMI, VGA, USB 3.0, audio cables, etc.) directly through the unit and hide them below the desktop, keeping the work area neat and organized.
- **Concealed Design:** The flip-up cover design allows unused interfaces to be hidden, effectively reducing cable clutter and improving desktop aesthetics and space utilization.
- **Durable Construction:** Features a robust alloy casing for durability and wear resistance, suitable for daily office environment usage.
- **Easy Installation:** Designed to fit into 269 x 118 mm(R2) holes for a simple, tool-free drop-in installation with a secure locking ring.

Package Contents

- (1) GIGATRON CR-633-MUCW1 box
- (2) Mounting Wing Screws (2 pcs)
